FOR IMMEDIATE RELEASE:

Codejock Releases ToolkitPro and SuitePro 2009 Vol. 1 for Visual C++ and ActiveX

Volume 1 is the first major release for Codejock of 2009. This release introduces many stability and usability enhancements for all components. Additionally Calendar and Date Picker controls have received many improvements including a brand new Outlook Journal style time line view.

MORRICE, Michigan, February 9, 2009 – Codejock a leading provider of modern user interface components, today announced the release of Toolkit Pro 2009 Vol. 1 for Visual C++ MFC and Suite Pro 2009 Vol. 1 for ActiveX COM. This release provides a comprehensive set of fully customizable user interface components for use with Visual C++ MFC and ActiveX COM development.

This release incorporates many new features and enhancements including:

Improved Stability and Usability
The latest release provides many stability and usability enhancements for all components. Additionally Calendar and Date Picker have been enhanced by adding new Outlook Journal style time line view as well as support for calendar years predating 1501 AD.

Calendar Time Line View
The Outlook Journal style Time Line view presents information as a set of icons and rectangles with subject text in a horizontal-scrollable pane. The user can select different scale modes (Day, Week, Month). Events can be organized in the groups and groups can be separated by lines. Time Line also includes full print/print preview support. Users can easily switch to and from Time Line mode to other Calendar modes - Day, Week, Month view – depending on the currently selected scale. Finally the Time Line provides customization for all Colors, Fonts and Widths for Event in each scale mode.

A complete list of all new features can be found in the release notes for each product, found on the company's website, www.codejock.com.
