Codejock Software Releases Xtreme ToolkitPro 2006 Beta 1 and Xtreme SuitePro 2006 Beta 1 for Visual Studio .NET

OWOSSO, Michigan, March 15, 2006 - Codejock Software® today released Xtreme ToolkitPro™ 2006 and Xtreme SuitePro™ 2006 Beta 1, a preview of Codejock's next-generation interface development tools for Visual Studio .NET®. Xtreme ToolkitPro™ and Xtreme SuitePro™ incorporate two entirely NEW technologies for advanced interface development Xtreme SkinFramework and Xtreme RibbonBar as well as major enhancements to their calendar component Xtreme Calendar!

With Xtreme SkinFramework, Windows developers can easily apply a new custom "Skin" or "Visual Style" to their application framework which controls how each component and window should be displayed. Virtually every aspect of the application can be skinned including the caption bar, window frame and common controls. Developers can choose from several predefined skins that include Office 2007, Windows XP Royal Blue, or Windows XP Luna as well as customizing their own unique skin.

Xtreme RibbonBar is an Office 2007 style Ribbon Bar control which introduces an entirely new way to display menu or toolbar commands by combining them into a single tabular format that groups similar commands into section blocks for easier navigation.

Multi-scheduling views, appointment reminders, printing options and support for MS Outlook 2003® , MySQL and SQL Server, are just a few of the many requested updates to the Xtreme Calendar you will see in 2006 Beta 1.

Developers can download Beta 1 from Codejock's beta website http://beta.codejock.com.

About Codejock Software
Codejock Software, a division of Codejock Technologies, LLC based in Owosso, Michigan provides reusable software components for thousands of corporate customers worldwide facilitating rapid Graphical User Interface application development using Microsoft® Visual Studio .NET® development platforms. Codejock Software is considered a leading component provider, and is committed to helping developers realize their goals by providing superior customer service and technical support in addition to their already top notch components. Codejock Software's products and evaluation versions for the products are now available for download on the company's website. For more information on Codejock Software's products including software trial downloads visit www.codejock.com.
