FOR IMMEDIATE RELEASE:

Codejock Releases ToolkitPro and SuitePro 2009 Vol.3 for Visual C++ and ActiveX

This release introduces many stability and usability enhancements for all components. Additionally, the Ribbon's 2010 themes have been enhanced, the Report adds enhanced tree view support in virtual mode and enhanced excel-like formulas, the tabbed workspace gets a "new window" button and support has been added for Windows 7 and the latest Visual Studio 2010 beta.

MORRICE, Michigan, October 21, 2009 – Codejock a leading provider of modern user interface components, today announced the release of Toolkit Pro 2009 vol.3 for Visual C++ MFC and Suite Pro 2009 vol.3 for ActiveX COM. This release provides a comprehensive set of fully customizable user interface components for use with Visual C++ MFC and ActiveX COM development.

This release incorporates many new features and enhancements including:

Minimizable Shortcut Bar
The shortcut bar now supports the Office 2007 style minimize feature. With this the shortcut bar's width can be minimized to a single "toolbar" that can be expanded to see the shortcutbar in full.

Office 2010 and Visual Studio 2010 Style Themes
The ribbon can now use the Office 2010 style "white" and "scenic" themes. The white theme will use the new Office 2010 file menu button and the scenic theme will use the Windows 7 style file menu button.

Tab Workspace New Window Tab
The tab workspace now supports a "new window" tab similar to that seen in Internet Explorer. It is an extra tab button that is placed at the end of the tab list. This tab can be used to open a new window.

Excel-like Report Calculation Enhancements
The report's Excel-like formula support has been enhanced to support 2-level group row support.

Report Virtual Mode Enhancements
Many enhancements have been added to the report's virtual mode including multi-line cells, multiple children support and row height resizing.

Windows 7 Support
All products have been updated to work with Windows 7.

Visual Studio 2010 Support
Added support for the latest Visual Studio 2010 beta.

A complete list of all new features can be found in the release notes for each product located on the company's website, www.codejock.com.

About Codejock
